

Breathing Air Protection

Large Cylinder Air Cart

Our air carts offer emergency supply air and respiratory protection for a variety of industrial applications, hazardous materials handling, petrochemical, and confined space operations. They are designed for long duration industrial applications, easier mobility and function. They incorporate features like protected recessed controls, an equipment storage box, narrow profile, 16 pneumatic tires and quick-release hose hangers.

- 5000psi hardware
- Pneumatic low pressure alarm whistle
- Solid aluminum block manifold
- In-line check valves
- High flow adjustable regulator
- Input and output pressure gauges
- Storage box with latch
- Universal hand tight nuts – fits 2400 to 5000psi cylinders
- Quick release hose rack – holds 200 ft. of 3/8" hose
- 16" pneumatic tires
- 62"H x 25"W x 30"D w/cylinders
- Weight: 112 lbs. without cylinders
